CXBolt

Manage Less, sell
more - your AI
Agent handles
the rest

More Customers

Increased Sales

**You bring customer
We will ensure they will
not go without purchase**

 **Our Expertise in building AI Agent for Ecommerce Stores**

**Our Goal is Simple:
More Orders, Higher
Revenue, Smarter
Operations.**

Ecommerce Store Challenges

- 70% of carts are abandoned before purchase
- High churn rate due to lack of proactive retention strategies
- Poor personalization on App/Website leading to low engagement
- Customers expect 24/7 support and instant answers
- Scaling support requires hiring more agents, which is expensive.

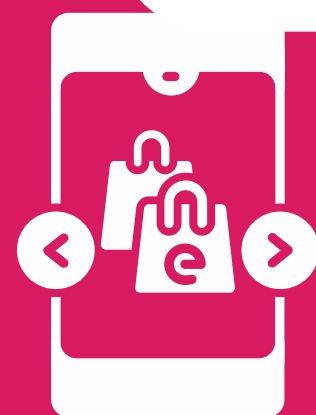

**80% Increase
in Sales**

**70% More
Customers**

90% Improved CX

**45% Operational
Cost Reduced**

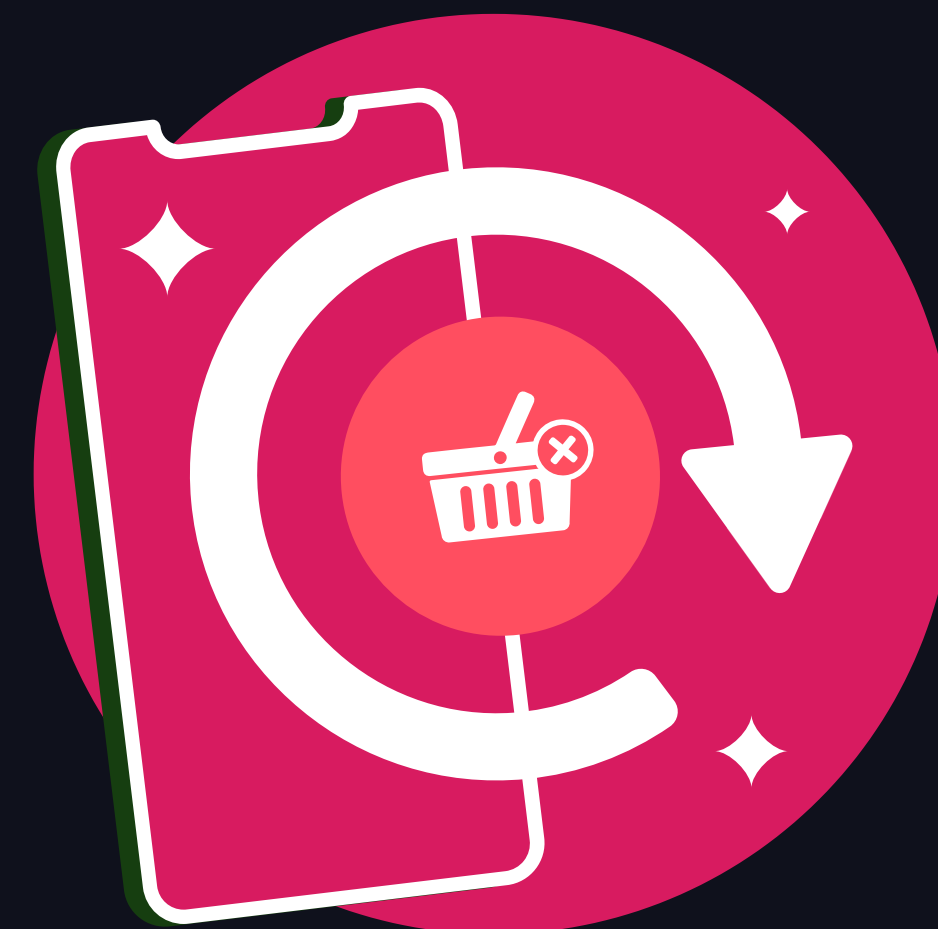

Services for your **Ecommerce Store**

- ✓ Turning Abandoned carts into completed purchase
- ✓ Predictive Reordering to restock before time
- ✓ Building chatbots that listen, understand and engage
- ✓ Personalized Recommendations for the customers

Turning **Abdandoned** carts into completed purchases

- 69.99% of online shopping carts are abandoned without completing a purchase.
- The global e-commerce revenue loss due to cart abandonment exceeds \$4 trillion annually.

“We have built the solution that recovers 70-75% of the abandoned cart”

Solution to Recover Abandoned Cart - Our Voice AI Agent

- **Calls customers who left items in their carts**
- **Provides real-time assistance via natural conversation**
- **Converts 70-75 % more abandoned checkouts**
- **Fully integrated with CRMs and order systems**
- **Convert visiting customer to loyal customer**

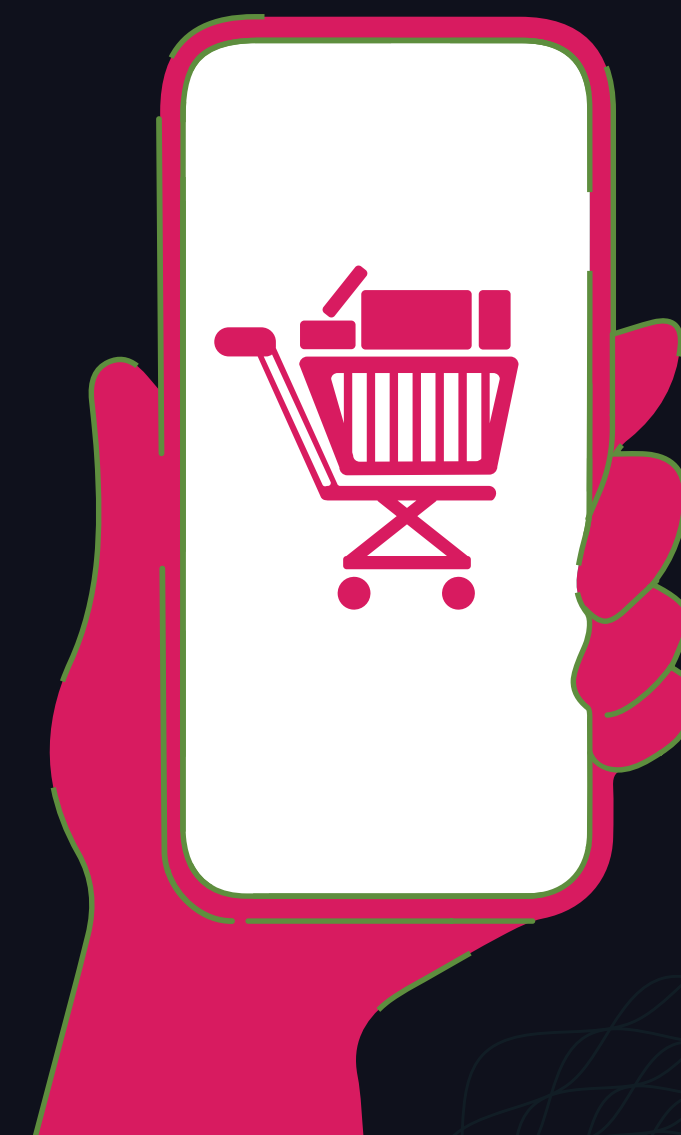

Ecommerce Specialist Voice AI Agent

Predictive Reordering to restock before time using AI

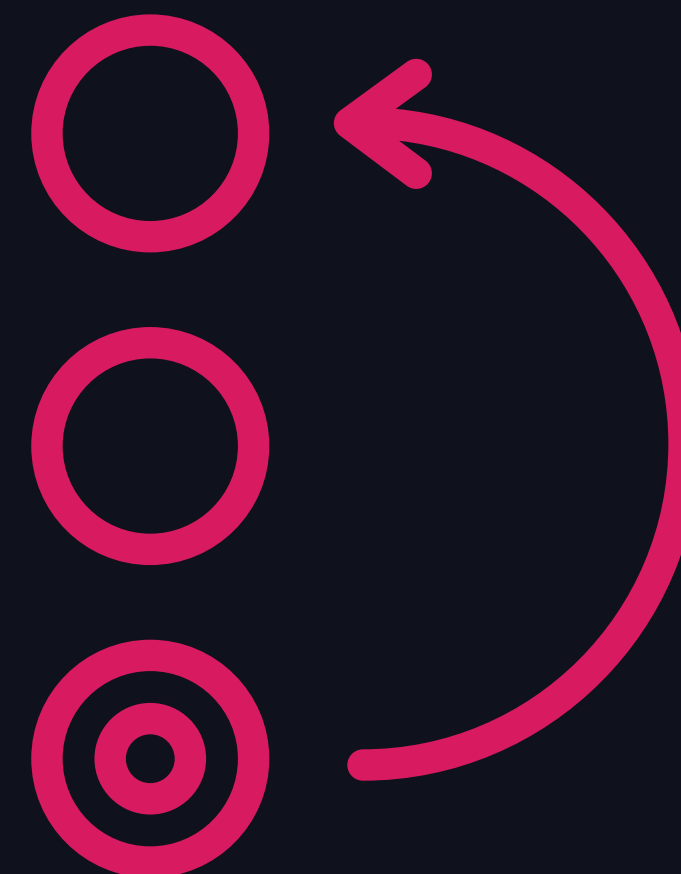

- **Our AI-powered predictive reordering system analyzes**
 - purchase patterns
 - usage rates
 - customer behavior
- **Win repeat sales before Customers forget**

“Predictive Reordering ensures increase in sales by atleast 45% and devleops the strong relationship with a customer

Benefits of Predictive Reordering

- Predicts next purchase cycle for each user
- Sends timely reminders and reorder prompts
- Automates loyalty without discounting
- Helps to optimize inventory
- Increase sales by at least 45%

Building **AI chatbots** that listen, understand and engage

Challenges

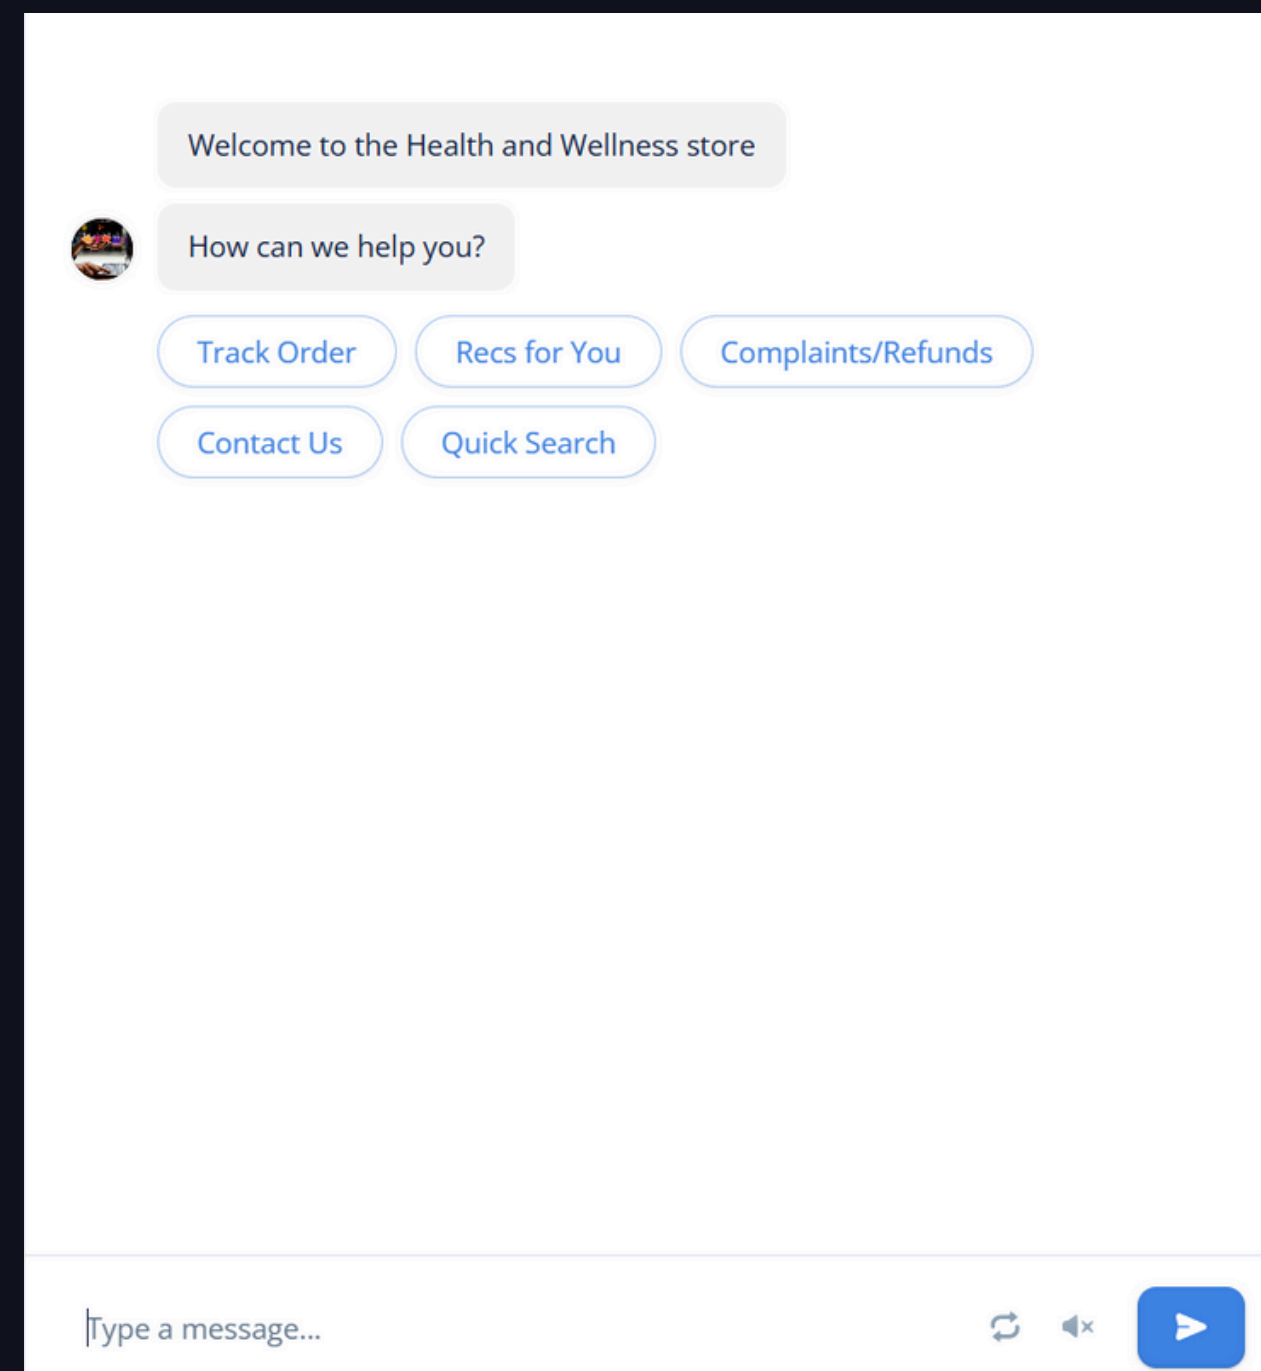

- **Delayed Customer Support**
 - Long response times frustrate customers and increase bounce rates.
- **High Support Costs**
 - Relying on human agents 24/7 is expensive and inefficient.
- **Missed Sales Opportunities**
 - No one to answer product questions instantly, leading to lost conversions

Benefit of using Our Specialized Ecommerce AI Chatbot

- **Instant, 24/7 Customer Support**
 - Answers FAQs, tracks orders, processes returns – anytime
- **Boosts Sales Conversions**
 - Assists with product discovery and upsells based on customer behavior
- **Reduced Operational Costs**
 - Handles thousands of chats simultaneously without added headcount
- **Upselling the Discounted and Best Sellers**

Works smoothly with platforms like Shopify, Magento, WooCommerce, etc.

Personalized Recommendations for the customers

Challenges

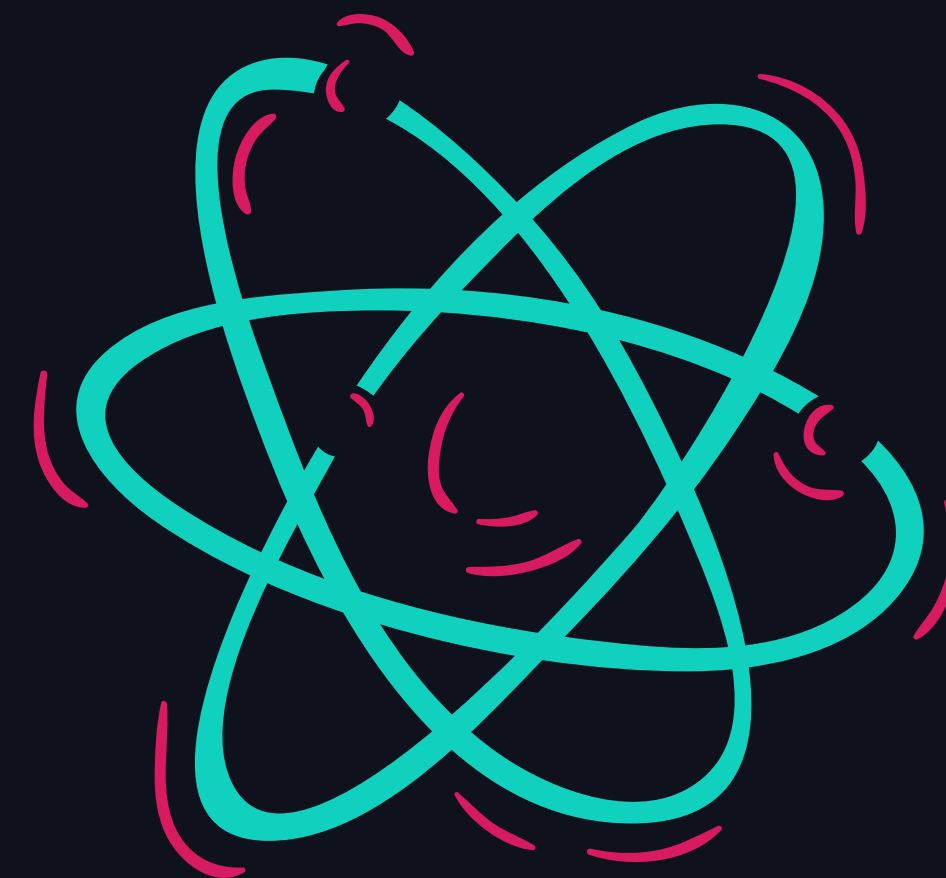

- **Low Customer Engagement**
 - Visitors see generic products that don't match their interests or behavior.
- **Lost Revenue Opportunities**
 - Customers miss out on complementary or trending products they might have bought.
- **Decreased Average Order Value (AOV)**
 - No intelligent cross-selling or upselling to increase basket size

CX Bolt's AI Recommendations

Solve these Challenges

- **Hyper-Personalized Product Suggestions**
 - Tailored recommendations based on browsing history, purchases, and behavior.
- **Increased AOV & Upsell Rates**
 - Suggests related or higher-value products in real-time.
- **Real-Time Intelligence**
 - AI adapts to behavior instantly – no manual setup or rule-based logic.

Works smoothly with platforms like Shopify, Magento, WooCommerce, etc.
